

## Poultry Purchase Policy

- We cannot <u>GUARANTEE</u> a rooster will not be received. We do request that the hatchery sex all chicks before shipping, but this is not an exact science.
- Chicks must be purchased in quantities of 3, all due on the same week.
- We will call you at the phone number you provide once we receive the chicks & they are ready for pick up.
- We guarantee the health of our birds for 48 hours. If you have any questions or concerns, please call the store immediately.
- All chicks come from certified Pullorum free hatcheries and are vaccinated for Marek's disease. Silkies and meat birds are not vaccinated.
